# **INTRODUCTORY SECTION**

## Gridley Union School District 2023-2024 Original Budget Summary

## **Development of 2023-2024 Budget**

The development of the District's budget is an ongoing process. In January, the Governor releases his proposed budget for the following year. This information is used in conjunction with student enrollments as of January 31<sup>st</sup> to begin the budgeting process. The Governor's proposed budget in January provides preliminary information on funding changes and new mandates that would affect education.

Student enrollments as of January 31<sup>st</sup> are used to estimate the following year's enrollment. The following assumptions are made based on the enrollment numbers:

- 1. Staffing projections (both certificated and classified)
- 2. Number of classrooms needed per site.
- 3. Program needs of students at specific sites.
- 4. Transportation needs
- 5. Food service needs

The Governor releases a second budget proposal in May called the May Revise. This budget is the budget that the Governor expects the legislature to approve in June. The May Revise reflects the most current State revenues and expenditures for the current year. It also projects State revenues and expenditures for the next fiscal year. The May Revise reflects the Governor's proposal for school district funding for the next fiscal year. School districts finalize their budget proposals based on the May Revise information.

This year there are several possible changes related to the calculation of Average Daily Attendance (ADA). Currently, there are several possibilities with the funding model as it relates to Local Control Funding Formula (LCFF). Once the budget has been approved the district will reevaluate the funding for the district. The district has chosen to take the conservative approach and is using current law and P-2 ADA with a three average of the ADA when calculating these numbers. Once the state has a signed budget, the school district will have 45 days to revise our districts budget.

During budget preparation, the goal is to develop a budget that reflects the philosophy and priorities of the Board, administration, and community. The budget must also be fiscally responsible and allow the Board to maintain local control over the District's finances. In order to meet this goal, the District must present the current year budget and a multi-year projection that maintains a minimum 5% unrestricted fund balance reserve. Additionally, the budget needs to provide the most efficient use of resources to support instructional programs and staffing needs. Finally, but most importantly, the district must provide a safe and desirable working and learning environment for students and staff.

In 2013/14, the State significantly changed the way that school districts were funded by adopting the Local Control Funding Formula (LCFF). The intent of LCFF is to provide greater flexibility and more local control to school districts to use the allocated State funds to best serve their student populations.

The District is required to complete a Local Control Accountability Plan (LCAP) as part of the LCFF funding requirements. The LCAP process consists of a needs assessment, identifying goals, consulting with stakeholders and then developing goals and strategies to deliver the necessary programs to students. The plan must also address the specific needs of low income, English language learners and foster students as a portion of the funding received will be designated for this purpose. The LCAP is incorporated into this budget.

The budget will be monitored and adjusted throughout the year. The District is required by State law to provide the Board with two interim financial reports during the year, which will reflect necessary budget adjustments.

### **Enrollment**

The projected enrollment for 2023-2024 is 2,040 students. The district experienced declining enrollment in 2022-23. With the continuing COVID-19 Pandemic, enrollment has slightly changed. The district is projecting a slight increase in enrollment for 2023-2024.

The chart below summarizes the district's enrollments over the past 10 years and the projection for 2023-2024.

## Average Daily Attendance (ADA)

Average Daily Attendance (ADA) is used to determine the amount of funding to be received by the district for various programs. ADA is the primary factor in determining LCFF funding. ADA is calculated by dividing the total days of student attendance by the total days of instruction offered. This number represents the percentage of actual attendance earned by the students. The District's ADA for the past ten years with a projection for 2023-2024 is summarized below.

Year	ADA	Change	%Change
2013/14	2020.24	-40.9	-2.02%

2022/23	1877.59	31	1.65%

## **Unduplicated Pupil Percentage**

The unduplicated pupil percentage (UPP) is used to determine the amount of supplemental and concentration grant funding that the district will receive and is part of the LCFF calculation. The UPP is based on the number of students who qualify for free or reduced lunch, are English Language Learners (EL) or are foster students. The student can only be counted once even if they qualify in more than one category.

Supplemental and concentration grant funding is the amount that the district must include in the LCAP to provide increased and improved services to students. The services designated in the LCAP are services provided above and beyond the core program.

The LCFF calculation uses a 3-year rolling average for the unduplicated pupil percent. The chart below summarizes the UPP since the inception of the LCFF funding model. The unduplicated count and the enrollment counts include Gridley students who are served in BCOE regional programs. While these students are not included in our CBEDS numbers, they are included here. Any monies collected for these students are sent to BCOE for providing services.

### Revenues

The largest source of funding for school districts is the LCFF. This is a State Allocation of general-purpose money and is made up of State aid and local taxes. For 2023-2024, the District's LCFF allocation is projected to be \$14,233 per ADA. The chart below summarizes revenues by category for 2022-23 and 2023-2024.

## **Expenditures**

Expenditures consist of salaries and benefits, books, supplies, utilities, capital outlay and contracted services. The largest portion (80%) of the budget is spent on salaries and benefits. The greatest proportion goes to salaries for direct instruction of students. The District anticipates spending \$18,946.14 per student in 2023-2024. The chart below compares 2022-23 expenditures to 2023-2024 budgeted expenditures.

## Reserves

The total budget includes the beginning balance and all anticipated income for the year. The ending balance is the resources that remain after expenditures are deducted from the total budget amount. The ending balance is also referred to as the District's "reserves". The fund balance is broken down into five classifications:

- Nonspendable amounts that are not in spendable form, such as revolving cash accounts, inventory and prepaid items.
- Restricted amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, laws or regulations of other governments or by law through constitutional provisions or enabling legislation.
- Committed amounts subject to internal constraints self-imposed by formal action of the District's governing board.
- Assigned amounts the District intends to be used for specific purposes. Authority to establish assignments has been designated to the Superintendent and the Chief Business Official.
- Unassigned the residual balance that has not been restricted, committed or assigned to specific purposes. The Reserve for Economic Uncertainties is included in this category.

The total ending balance of \$9,178,014 is an estimated amount based on an anticipated beginning fund balance. The beginning fund balance is determined by estimated 2022-23 income and expenditure figures. The actual beginning fund balance will not be known until the 2022-23 unaudited actuals are prepared in September 2023.

# **GENERAL FUND**

## **Budget Assumptions for 2023-2024**

## Fund Name: General Fund

## Purpose

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

## Assumptions

## Revenues

- Enrollment is projected at 2,040.
- Funded Average Daily Attendance is projected at 1,929.55 (3-prior year average P2 ADA).
- LCFF entitlement per ADA is estimated to be \$14,233 (total of base grant, grade span add-on, supplemental and concentration grants). The factors included in this estimate are fully funded LCFF, COLA of 8.22% and an unduplicated student percentage of 72.40%.
- ADA estimates include 4.13 ADA from students in BCOE operated special education programs. The revenue generated by this ADA (approximately \$58,782) will be transferred to the county based on the District's LCFF funding rate.
- A substantial portion of Federal Revenue is from unearned income as it is from American Rescue Plan (ARP). These funds have required board approved plans and need to be spent by each program's deadline.
- The state also has several new one-time funding programs related to COVID 19 response.
- Lottery is budgeted at \$170 per prior year ADA.
- A three-year average is used to estimate interest and miscellaneous income.

STANDARD: Projected local control funding formula (LCFF) revenue for any of the budget year or two subsequent fiscal years has not changed from the prior fiscal year by more than the change in population, plus the district's gap funding or cost-of-living adjustment (COLA)<sup>1</sup> and its economic recovery target payment, plus or minus one percent.

For basic aid districts, projected LCFF revenue has not changed from the prior fiscal year by more than the percent change in property tax revenues plus or minus one percent.

For districts funded by necessary small school formulas, projected LCFF revenue has not changed from the prior fiscal year amount by more than the district's gap funding or COLA<sup>1</sup> and its economic recovery target payment, plus or minus one percent.

<sup>1</sup> Districts that are already at or above their LCFF target funding as described in Education Code Section 42238.03(d) receive no gap funding. These districts have a COLA applied to their LCFF target, but their year-over-year revenue increase might be less than the statutory COLA due to certain local factors and components of the funding formula.

### S8. Status of Labor Agreements

Analyze the status of all employee labor agreements. Identify new labor agreements, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. Compare the increase in new commitments to the projected increase in ongoing revenues, and explain how these commitments will be funded in future fiscal years.

### If salary and benefit negotiations are not finalized at budget adoption, upon settlement with certificated or classified staff:

The school district must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards, and may provide written comments to the president of the district governing board and superintendent.

Part II - Adjustments for Employment Separation Costs	
Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool. Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden	
Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal	
programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.	
A. Normal Separation Costs (optional)	
Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that	
were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400	
rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool.	
Retain supporting documentation.

Indirect Cost Rate Worksheet

the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the	
approved rate was based.	
Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for	
use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs,	
or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than	
the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.	
A. Indirect costs incurred in the current year (Part III, Line A8)	1,899,392.55
B. Carry-forward adjustment from prior year(s)	
1. Carry-forward adjustment from the second prior year	103,663.90
2. Carry-forward adjustment amount deferred from prior y ear(s), if any	(40,232.55)
C. Carry-forward adjustment for under- or over-recovery in the current year	
1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect	
cost rate (6.24%) times Part III, Line B19); zero if negative	116,059.62
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of	
(approved indirect cost rate (6.24%) times Part III, Line B19) or (the highest rate used to	
recover costs from any program (11.02%) times Part III, Line B19); zero if positive	0.00
D. Preliminary carry-forward adjustment (Line C1 or C2)	116,059.62
E. Optional allocation of negative carry-forward adjustment over more than one year	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which	
the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that	
the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more	
than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward	
adjustment is applied to the current year calculation:	not applicable
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward	
adjustment is applied to the current year calculation and the remainder	
is deferred to one or more future years:	not applicable
Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward	
adjustment is applied to the current year calculation and the remainder	
is deferred to one or more future years:	not applicable
LEA request for Option 1, Option 2, or Option 3

F. Carry-forward adjustment used in Part III, Line A9 (Line D minus amount deferred if	
Option 2 or Option 3 is selected)	116,059.62
