2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

McKinley Primary School was built in 1937. The main building of McKinley Primary School contains eight classrooms, boys and girls restrooms, a staff restroom, a staff room, and various offices. In addition to this main building, there are seven relocatable classrooms which house students. In the summer of 2016, McKinley Primary School removed 3 portable classrooms and added 3 state of the art portables, including staff restrooms and a restroom attached to our Severely Handicapped classroom. The entire playground blacktop was refurbished and new sod was installed in the grass area. Recently a native pollinator garden was installed as were two Buddy Benches on the playground.

Our school MISSION is to provide a safe, nurturing, child-centered environment that ensures a developmentally appropriate education for ALL children. At McKinley Primary School we strive to ensure that all students begin their educational journey in an environment that builds success emotionally, academically, socially, and physically while fostering the joy of learning. We are committed to forging partnerships with parents and providing a curriculum which prepares students to be responsible, productive citizens in our changing world.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

McKinley Primary School, built in the late 1930's, is maintained in a clean and physically safe condition. A cafeteria is available, but it is located on the Sycamore campus (necessitating the crossing of Vermont Street to have breakfast and lunch) and it requires a complex schedule to accommodate all McKinley and Sycamore students. The classrooms in the McKinley building are below state square footage standards. The only classrooms on the McKinley site that have running water are the seven portables installed in 2001, 2005 and 2016. In order to have student body assemblies and activities, students must meet outdoors or use the gym or cafeteria on the Sycamore campus when available. Adequate storage for the materials necessary to maintain a high quality primary education program is extremely limited. Playground equipment has been carefully selected to utilize the small space for maximum participation. Playground equipment includes two playground structures, two primary basketball type games, a slide and games painted on the blacktop. The closure of Vermont Street during school hours has been a major asset improving both the safety and orderliness of passage between campuses as noted.

Although the school has been added on to and well maintained it is in need of painting and some repairs, especially the south facing wall of the original building. The current state of the facility and grounds is a testament to all of the staff members at McKinley Primary School.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

McKinley Primary School invites parents to participate on our School Site Council and on our English Learner Advisory Committee. We encourage our parents to volunteer in our classrooms, to assist teachers on field trips, and to support our annual Read-A-Thon fundraiser. Parents are invited to attend various informational events with the Principal and the Counselor, as well as various parent/family nights hosted in conjunction with Wilson Elementary School. All elementary parents were invited to participate in parent education through PIQE. The school hosts family activities such as science and engineering nights. Teachers and administration are in continuous contact with parents through parent / teacher conferences, weekly newsletters, and announcements on ParentSquare which are sent home in Spanish and English.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

2022-23 School Safety Plan

McKinley Primary School has an updated emergency plan for fire drills, earthquake safety, and basic procedures: fire, earthquake, and shelter in place drills are conducted throughout the school year. The plan was reviewed and adopted by School Site Council and Safety Team members on October 20, 2021. It will be reviewed annually by both the SSC and Safety Team annually before the month of December. In addition, the Gridley Unified School District has adopted a district-wide crisis plan. All staff members are knowledgeable of the safety rules for the classroom and playground, and the procedures are reviewed in a beginning of the year staff meeting and discussed regularly. There is an emphasis placed on bicycle, pedestrian, and train safety due to the school's proximity to a main thorough fare and railroad tracks. School Safety plan on file in the office. Teachers and staff members are trained annually on planned responses to many possible emergencies.

Professional Development

For the 2018-19 school year, the faculty had three professional development days focused on students with trauma, Google Classroom, Illuminate and Catapult. Also, McKinley Primary School teachers had early release days every Wednesday afternoon to meet in their Professional Learning Communities to collaborate with each other to review student data and discuss researched-based instructional strategies.

For the 2019-2020 school year, the faculty had three professional development days focused on best practices for instructional protocols. Also, McKinley Primary School teachers had early release days every Wednesday afternoon to meet in their Professional Learning Communities to collaborate with each other to review student data and discuss researched-based instructional strategies.

For the 2020-2021, we have had to pivot to Distance Learning and educational technology to begin the school year. Teachers received an additional day of professional development to prepare for distance learning. In October, the district was able to return to in person instruction. At that time, teachers were given an additional day to prepare for the students' return. Wednesdays continue to be utilized for PLCs. Current Professional Development topics for the 2020-2021 school year include Distance Learning strategies for engagement and student success, Thinking Maps (visual learning strategies), Daily 5 (developing independent readers).

2021-2022 the faculty had three professional development days focused on recovering from learning loss, ELD, and our collective vision for K-5 literacy. Also, McKinley Primary School teachers had early release days every Wednesday afternoon to meet in their Professional Learning Communities to collaborate with each other to review student data and discuss researched-based instructional strategies. Two extra days were offered as optional PD days and 100% of McKinley teachers opted to participate. During this time, teachers met with cross level teams to articulate and align their programs.

2022-2023 McKinley teachers were asked to come in for two extra days of professional development in the Science of Reading and its implications for classroom instruction. In addition, teachers participated in three professional development days prior to the start of school focused around our new literacy screening tool, TK program development, ParentSquare, Hands on English, and the production of English speech sounds. Wednesdays continue to be utilized for PLCs. Earlier in the summer 5 teachers attended a one week Orton Gillingham training. Throughout the school year other teachers attended Kimochi training, the Kindergarten Conference, Soliday intervention materials training, and various Science of Reading webinars.
